

# The Ploughman

BOSTON, SATURDAY, MAR. 20, 1880.

The theatre of the city are all doing a fine business, despite the recent unpropitious weather. The season is well advanced, and the public are beginning to feel the effects of the coming season.

Parnell hurried home to attend to his seat in Parliament, in view of the coming election of a new body.

The work to be done on the projected Panama Canal will be all that the ploughman can do, and the nearer one gets to the details, the more one gets to the details.

The Massachusetts Horticultural Society gave an Asalea and Rose Exhibition on Thursday of the present week, at Horticultural Hall.

The infection of Gen. Grant is to sail on the 18th. (Thursday) for Galveston, and then to take the route for San Antonio and Louisville.

In the San Francisco public court, Deni Kearney, being brought to trial, was found guilty of using language calculated to produce a breach of the peace.

Facilities are extended in Chicago for women to gamble in the stock market, and New York similar facilities are provided for their gambling in the stock.

The stock market is not particularly strong just now, either in New York or Boston. The prevailing rates for money are high, which will in good part account for it.

The Mississippi River above New Orleans is very high, creating apprehensions that the levees will not stand the strain upon it. A crevasse thirty feet wide is already reported.

Melillo's manner of transacting business at St. Petersburg gives great satisfaction to the public, and he is coming to consider the proposal.

The Tremont Temple religious society in said to have offered Rev. Dr. M. Ellis, of Denver, Col., a salary of \$10,000 to come and preach in the Temple, and he is coming to consider the proposal.

There is a rumor current that Secretary Sherman is paying out silver to meet the interest on the public debt. The people, in that way, will shortly be brought to comprehend the true meaning of silver.

There are grave questions raised whether the gold and a vermin of justice will actually remunerate the outlay on them, although the extent and quality of the copper found in the State are an exception to the case.

The "Salvation Army" of England has arrived in New York by its representation of seven women and one man, all in uniform, and bearing a banner, but they find serious obstruction to holding their meetings either in the public parks or the streets.

The Senate is considered to have rather set down on the various intercessant canal schemes, by refusing to appoint a special committee to consider them. It directed the President to ask up co-operation of Europe's maritime nations in the work.

Hon. CHARLES L. FLETCHER, Secretary of the State Board of Agriculture, who has also acted as president of the Massachusetts Agricultural Congress, has been elected president.

It is proposed in Congress to enact a joint rule on the subject of counting the electoral votes. There are two plans; one is to revive the old rule, which provided that one House might reject the vote of a State by objecting to it, the other is to make it necessary for both Houses to object to the vote of a State can be rejected.

CONGRESS.

Petitions have been presented for the repeal of the duty on paper manufacturing materials. The star route deficiency appropriation bill came up for consideration, and was debated at length. It appears that the star routes cover 215,000 miles in all sections of the country, while all other routes of mail transportation amount to 100,000 miles.

Mr. Tucker, of Virginia, introduced a bill in the House, appropriating \$25,000 for the relief of the daughter and grand-daughter of the late President Taylor. The pending bill relative to the investment of Pacific Railroad's sinking fund, was postponed until the third Monday of next month. The Ways and Means Committee of the House has reported in favor of the tariff question bill. It also took up the tariff question bill, and decided to take them up next Monday and continue them until disposed of. This will embrace the articles of paper and sugar, in the order named. The resolution for final adjustment on the 25th, which was referred to the Ways and Means Committee, will not be taken up until after the tariff questions are disposed of, and not until after a conference with the Committee on Appropriations. The House Committee on Foreign Affairs agreed to report a bill to refund to the Japanese Government the indemnity money which has accumulated, amounting to \$1,000,000. The Senate Privileges and Elections Committee agreed to the report in favor of unseating Senator Kellogg of Louisiana, and seating Spooner. The Senate Committee on Commerce and Fisheries, and passed the Fortification Appropriation bill, one of its stipulations being that four improved breech-loading twelve inch rifled guns should be constructed from the increased gun appropriation. The subject of the "smooth-bore cannon into rifled guns was debated at length.

LEGISLATURE.

The House has voted to begin its morning session at 10 o'clock in the morning, and to adjourn its afternoon session at 5 o'clock in the afternoon. The committees of both branches are very busy with their hearings. That on the elevated railroad question continues to attract much public attention. The Committee on Agriculture heard an argument against to any change in the law relative to the manufacture and sale of oleomargarine. The Prison Commission has prepared a bill, to be submitted to the Governor for final approval, providing for the erection of suitable houses on the State lands at Bridgewater, to be used as a reformatory for male prisoners, the cost of the same not to exceed \$40,000. The bill also provides for the removal of prisoners from the various penitentiaries, and the House has passed the bill.

The House has passed the bill, and the Senate has passed the bill, and the President has signed the bill.

The House has passed the bill, and the Senate has passed the bill, and the President has signed the bill.

The House has passed the bill, and the Senate has passed the bill, and the President has signed the bill.

**New Advertisements.**  
**KEMP'S PATENT**  
**Manure Spreader,**  
PULVERIZER AND CART COMBINED.

We invite the attention of Farmers to this new invention which has been thoroughly tested, and which we place upon the market, perfect in its kind, and adapted to spreading all kinds of manure. This is not only a great labor saving machine, but it does its work better than any other. It will spread all kinds of manure, whether coarse or fine, wet or dry, heavy or light. It is regulated to spread different depths, so that the farmer may know just what amount of manure is being spread, and the time required to spread a load is from two to three minutes without manual labor. This great saving of time and labor is only of secondary importance, as compared with the quality of work it does.

**RICHARDSON MANUFACTURING COMPANY,**  
WORCESTER, MASS.
